Canue Metadata - Neighborhood Dwellings Needing Repair

2026-11-06

DATA SET INFORMATION

Dataset Code: NHDWL_AVA_YY

Description:

In April 2023, CANUE staff obtained the 2016 and 2021 census datasets in IVT format for all of Canada (comprehensive download files without confidence intervals). At the dissemination area (DA) level using 25% sample data from the Household characteristics heading, the proportion of dwellings needing major repair was calculated. Missing data was assigned a value of -9999. The dataset of the proportion of dwellings needing major repair was joined to the digital boundary DA shapefiles for each respective year. CANUE staff then assigned the proportion of dwellings needing major repair to the corresponding DMTI postal code file for the given year.

Keywords: dwellings - major repairs - statistics canada - neighbourhood environments

Place Keywords: Canada - National

GEOSPATIAL REFERENCE

Upper Left Corner: 65.14N , -141.02W

Lower Right Corner: 41.68N , -52.62W

Coordinate System: GCS_WGS84 - EPSG:4326

Geometry Type: POINT - Units: Decimal Degree

Geometry Data Source: DMTI Spatial Inc. (postal codes)

QUALITY ASSESSMENT

QA/QC Procedures:

CANUE did not assess the quality of the dwellings needing major repair datasets. Users should review the supporting documentation and any recommended citations.

Geographic Coordinate Positional Accuracy:

These metrics are linked to the corresponding annual postal codes files for mapping and analysis purposes. Refer to the postal code metadata file in Supporting Documentation for more information.

Vertical Positional Accuracy: N/A

Attribute Accuracy: N/A

Data Validity: NoData = -9999 - Data insufficient to calculate value = -1111

Associated Files:

Data Comment:

DATA SOURCE

Data Source

Statistics Canada Dissemination Area boundary file | Statistics Canada Census Profile comprehensive download (without confidence intervals) | DMTI Spatial Inc (postal codes)

Spatial Resolution: Dissemination Area

Data Preparation Date: April 2023

Beginning Date: 2016

End Date: 2021

Sampling Frequency of Data: Annual - census years only

Years Available:
2016 - 2021

MAINTENANCE

Description: N/A

File Type: Comma separated values(.csv)

File Size: Individual year files are approximately 12 MB in size

Number of Data Files: 2

DATA USE CONDITIONS

The Data User is REQUIRED:
(i) to acknowledge data sources listed under Acknowledgement(s)
(ii) cite the publication(s) listed under Recommended Citation(s) as the providers and source of these data when using them in support of research, analysis, operations, policy decision or any other undertaking including publication
(iii) complete and sign the CANUE Data Use and Sharing Agreement (available at http://canue.ca/data/), in which the name and signature of the researcher/analyst who takes responsibility for ensuring all conditions are met.

Data Sharing Restrictions:
These data files are provided solely for the purposes stated in the CANUE Data Sharing and Use Agreement and should not be re-distributed for any reason. These data also contain proprietary postal code data and may only be used for the project named in the CANUE Data Sharing and Use Agreement. Data can be shared only within a project team for the exclusive purposes of teaching, academic research and publishing, and/or planning of educational services in accordance to DMTI End User Agreement associated with the Spatial Mapping Academic Research Tools (SMART) Program.
